

# Key Tracker

An easy - to - use key management system  
No more time spent looking for keys !!

## 4 Simple Parts

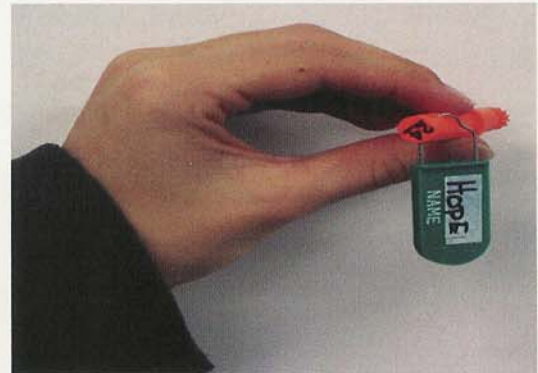

1. The system starts with a **KEY BOARD** that holds from 5 to 150 key plugs.

2. **KEY PLUGS** are individually locked into a numbered port on the board.

3. A **TAMPER SEAL** secures one or more keys to each key plug and can't be removed unless the wire is cut.

4. Persons authorized to remove keys are assigned an **ACCESS PEG**, marked with an I.D. number or letter on the end. Pegs are available in 12 different colors for clear identification of the owner.
