

Solutions

From

The Lock KEYper[®]

Finally... a system to manage **your** padlocks! Very simply, the Lock KEYper[®] controls the keys to **your** padlocks. Most importantly, the system provides a secure, organized home for padlocks when not in use. **At a glance you will know;** how many padlocks are out and who removed them from the system! The Lock KEYper[®] can be strategically placed where padlocks are needed.

Available in Solid front or
Lexan front enclosures!

Lock Out Stations

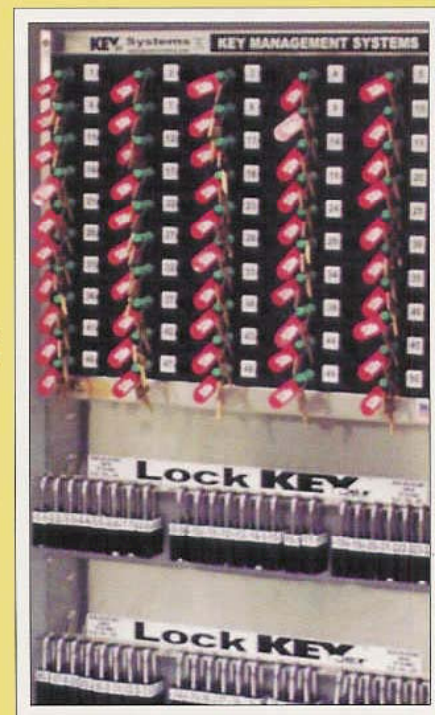

Plus Lock Accountability!

Always Know:

How many locks are readily available for immediate use and who removed locks from the system!
